

Ed-Fi Scale and Replication

Elements of Successful Scale

- C- • Awareness
- B • Applicability / Fidelity (solves real pain in predictable ways)
- D • Easy of adoption
- A- • Transparent governance that represents the community
- B • Willingness to see the greater good In community over self (avoid the temptation of the quick fix)

Awareness

- Continued 1:1 Ed-Fi staff outreach to states districts and vendors
- MSDF Blog Series on Interoperability
- Project Unicorn (district pledge to only procure systems w/ data out)
- Ed-Fi supporting the relaunch of the CTO working group with League of Innovative Schools (80 major districts)
- Re -launching the Data Systems Working Group Collaborative of Districts (formerly a Gates foundation supported group)

Applicability / Fidelity

- Given the budget uncertainty in D.C. we are exploring how Ed-Fi and CEDS might more closely collaborate. Particularly where it comes to in operationalizing (and rationalizing) the data.
- Certification, Certification, Certification !!!!!
- Personalized Learning
- Help with a demand side Assessment Strategy

Ease of Adoption

- MetaEd
- Cloud ODS
- Expanding Partners (capabilities, numbers, diverse offerings)

Inhibitors

- Fragmentation in implementations
- Apathy / Fear
- Cowboy Mentality
