Quick Deploy of Ed-Fi ODS / API Development Server using Google Cloud VM Image (v3.4)

Description

This guide walks you through how to instantiate the custom Ed-Fi ODS/API v3.4.0 VM in Google Cloud.

The goal of this virtual machines is to have a quick way to stand up and explore the latest version of the Ed-Fi ODS/API. This virtual machine has proven to be very helpful for Education Agencies, and Software Vendors, such as Student Information Systems (SIS), and other EdTech related vendors. The ease of standing up and tearing down within minutes helps get familiar and explore all the interoperability possibilities with the Ed-Fi ODS / API.

*NOTE:* It is important to note that this VM Image is for development purposes only.
