

# \_Client SDK Download

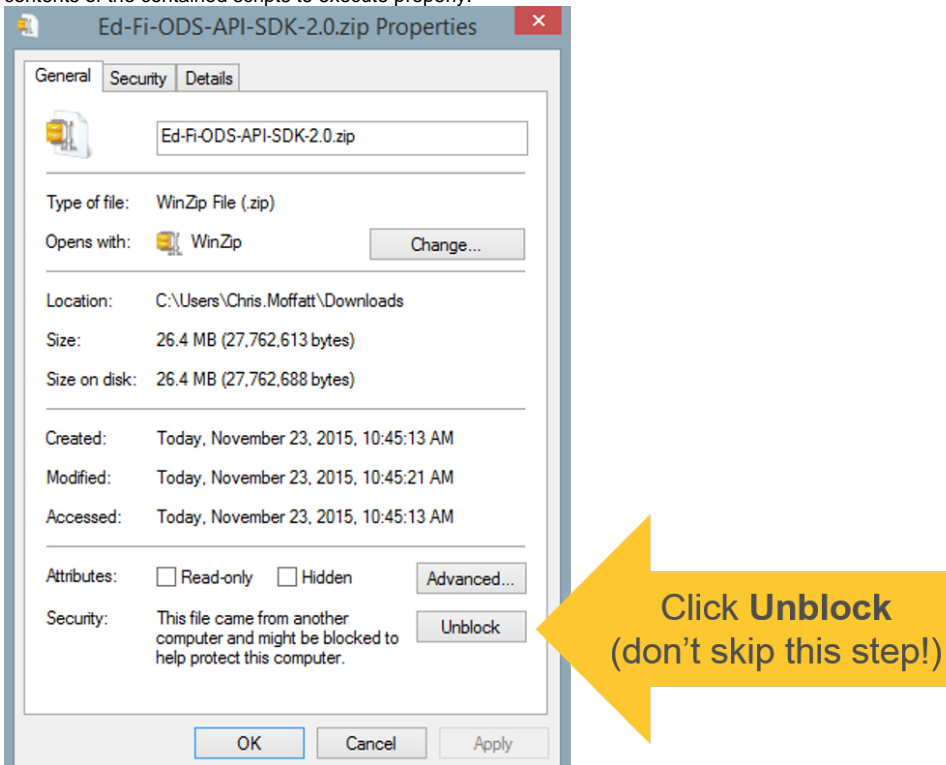

The Ed-Fi ODS / API Client SDK source code is contained in an Ed-Fi repository called Ed-Fi-ODS-API-SDK.

Follow these steps to download the repository archive and extract it:

- Navigate to GitHub and select the appropriate version of the source code:
  - Latest Stable Release (v2.4): <https://github.com/Ed-Fi-Alliance/Ed-Fi-ODS-API-SDK/tree/v2.4.0>
  - Latest Daily Source: <https://github.com/Ed-Fi-Alliance/Ed-Fi-ODS-API-SDK/tree/development>
- Download the repository archive to your local drive.

- In Windows Explorer, right-click on the downloaded ZIP files and select "Properties." On the General tab, press the **Unblock** button to allow the contents of the contained scripts to execute properly.

- In Windows Explorer, right-click on the downloaded ZIP file and select **Extract All...** Enter "C:\\" for the target folder. The ZIP files contain an embedded folder ending in "-2.4.0" (i.e., C:\Ed-Fi-ODS-API-SDK-2.4.0).
- After the extractions are complete, rename the folder to remove the "-2.4.0" from the folder name (i.e., C:\Ed-Fi-ODS-API-SDK).
