

Quick Start User Guide

The Ed-Fi Dashboards were designed for teachers by teachers, and are provided as a free starter kit as part of the Ed-Fi Technical Suite. The Dashboards connect the data from start to finish by transforming data into insights that make it easier for teachers to teach, for students to learn, and for schools to succeed.

This guide outlines the most popular and useful features of the dashboard, as determined by educators currently using Ed-Fi Dashboards in their daily work with students.

Visit Our Online Demo

This Quick Start guide is designed as a companion to the Ed-Fi Dashboards demo site, which is populated with fictional data and is available at <https://dashboards.ed-fi.org/v3/App>. If you want to use this guide interactively, you can use the following logins:

User Name*	Role	Organization
GabbyannMartins	Superintendent	Glendale ISD
JeriRussell	Principal	Hollywood High School
AnissaCanty	Principal	Mt. Gleason Elementary School
TiffanyPaul	Teacher	Hollywood High School
KellyBrown	Staff	Hollywood High School

*The password is "edfidemo" for all user names.

The Ed-Fi Dashboards are generally tested for and compatible with the recent versions of common browsers, including Chrome, Internet Explorer, Edge, Safari, and Firefox. Reasonably equivalent experiences are provided on each.

Student Information Highlights

Student Information Page

The Student Information page is a compilation of data that includes student program participation, accommodations, parent contact information, and a current student photo. This introductory page connects information which is often difficult to access without a dashboard because it is often located in different physical locations and online systems. With Ed-Fi Dashboards, educators can see student designations such as Special Education or Gifted & Talented, and can readily identify how to best contact parents or guardians.

- Navigate to any student
- Click on the **Student Information** tab located at the top of the dashboard

Academic Dashboard Overview

The Academic Dashboard Overview page enables educators to identify high-level student needs quickly, and to navigate, with one click, to a more detailed analysis of student performance.

The dashboard shows educators a summary view of student performance grouped into meaningful categories that include: Attendance and Discipline, State Assessments, Local Assessments, Grades and Credits, Advanced Academics, and College and Career Readiness.

For each category, users see a performance summary (e.g., "5 of 8 goal metrics have been met") as well as red or green status indicators representing the current status of underlying metrics. Users point the mouse at any status button to reveal the associated metric name (e.g., "Credits"), definition (e.g., "Student Progression") and student outcome (e.g., "Credit Accumulation = 8.5"). Clicking on the status indicator takes the user to a more detailed metric view.

- Navigate to any student
- Click on the **Academic Dashboard** tab
- Click on **Overview**

Class Period Attendance

Traditional calculations of average student attendance can mask class-period-level attendance problems. An Ed-Fi-powered dashboard displays student attendance by class period for the week and for the prior nine weeks. The color-coded blocks (red for absent, yellow for tardy) show patterns in student absences, tardies or early dismissals by class. The calendar view also shows the reason for missing or arriving late to the class.

- Navigate to any student
- Click on the **Academic Dashboard**
- Click on **Attendance and Discipline** and scroll to **Class Period Absence Rate**
- Under **More** button on right, click on **Calendar**

»

Assessment Performance Outcomes at the Learning Objective Level

Having detailed assessment performance information enables educators to quickly prioritize where to spend time, both for individual students as well as for their entire class. The dashboard features a view of performance on both state and local assessments that allows educators to see student outcomes over time and at the detailed objective or learning standard level. For each student, educators can see test scores and overall performance levels for each subject as well as the student's performance on each learning standard for state and local assessments.

- Navigate to any student
- Click on the **Academic Dashboard**
- Click on **State Assessments** or **Local Assessments**
- Click **More** to view historical information or learning standards detail

[View this page in our demo](#)

Advanced Academics

The dashboard can help identify students who are ready for a higher-level of academic challenge. A set of Advanced Course Potential metrics identify students who achieved advanced performance levels on recent state assessments in core subjects, and checks that these students are currently enrolled in the advanced course option for that subject.

- Navigate to any student

- Click on **Academic Dashboard**
- Click on **Advanced Academics**

[View this page in our demo »](#)

The screenshot shows the ed-fi dashboard for Francisca C. Johnson at Hollywood High School. The user is Sara H. Leighton's Homeroom. The dashboard is divided into three main sections: Student Information, Academic Dashboard, and Transcript. The Academic Dashboard is currently selected, and the Advanced Academics subcategory is active. The page displays two tables: 'Advanced Course Potential - Current Year' and 'Advanced Course Enrollment, Completion and Mastery - Prior Years'. Both tables show progress for ELA/Reading, Mathematics, Science, and Social Studies. A status bar at the bottom indicates 'Met Goal' for Gifted & Talented and 'Below Goal' for Special Education. The footer includes the ed-fi logo and copyright information for 2016 Ed-Fi Alliance, LLC.

College and Career Readiness

The data found in the College and Career Readiness section is designed for educators who do not currently have access to this data electronically or in a centralized, easy-to-access location. School-level users can see the graduation status, degree plan, and college entrance exam participation for all students on their campus. At the student level, educators can view participation in and scores on college entrance exams.

- Navigate to any campus
- Click on **Academic Dashboard**
- Click on **College and Career Readiness**
- Click the **More** drop down menu for more detailed data

The screenshot shows the ed-fi dashboard for Mario K. Anderson at Beverly Hills High School. The user is Margo F. Mack's Homeroom. The dashboard is divided into three main sections: Student Information, Academic Dashboard, and Transcript. The Academic Dashboard is currently selected, and the College/Career Readiness subcategory is active. The page displays the 'College Entrance Exams' section, which includes a table for 'PSAT (Through September 22, 2011)'. The table shows that the student has taken the exam and is 'At or Above Benchmark' with a score of 134. A 'PSAT Detail' button is visible, and a table below shows the breakdown of scores for Composite, Critical Reading, Mathematics, and Writing.

DATE	SUBJECT	SCORE	HIGHEST SCORE	BENCHMARK
9/22/2011	Composite	134		133
9/22/2011	Critical Reading	44		42
9/22/2011	Mathematics	46		44
9/22/2011	Writing	44		42

SAT (Through September 22, 2011)
 *Click for student test scores and score of the latest assessment

Taken YES Yes
 At or Above Benchmark AT GOAL 1560

SAT Detail

DATE	SUBJECT	SCORE	HIGHEST SCORE	BENCHMARK
9/22/2011	Composite	1560		1550
9/22/2011	Critical Reading	520	520	500
9/22/2011	Mathematics	520	520	500
9/22/2011	Writing	520	520	500

Transcripts

The Transcript page helps educators understand the history of academic trends, and prepare for academic discussions, such as parent/teacher conferences; interventions; Admissions, Reviews, and Dismissals (ARD); and other relevant sessions. Educators can see a comprehensive schedule of a student's current courses, as well as a historical view of student performance.

Users can view the class title, subject area, teacher, and grades for all classes in which a student is enrolled for the current academic year. Educators can also get a historical view of a student's grades and credits earned by subject and year, as well as historical assessment performance.

- Navigate to any student
- Click on **Transcript**

Classroom Overview Pages

General, Subject-Specific, and Prior Year Overview

The General Overview page is the default landing page for teachers. The General Overview allows a teacher to view metrics for the current year across all students assigned to the teacher's classes, for students in a specific class section, or for teacher-created watch lists. This view can be customized to include most metrics on the student dashboard pages. Each metric column can be sorted in ascending or descending order and uses the red and green color coding to make it easy for teachers to identify which students are meeting campus goals and which are not. Icons are displayed next to the name of students with specific designations such as Special Education or Limited English Proficiency.

Teachers often use General Overview to identify groups for small-group instruction, tutoring, or out-of-class intervention. The Customize View option allows teachers to select students to add to a watch list, which can be used to monitor the outcomes for a group of students over time. The dynamic watch list feature allows teachers to filter their class list based on metric values (e.g., score below standard on the state assessment in math) and create a watch list of all students who meet the filter criteria. A watch list can also be created manually by checking the box next to the student's name.

The Subject Specific Overview and Prior Year Overview pages look and function exactly like the General Overview page. The metrics displayed by default in the Subject Specific Overview are those most relevant to the teacher's subject area. For example, rather than defaulting to show the number of Grades Below Proficiency across all classes in which the student is enrolled, the Class Grade in the teacher's class is displayed for the student. The Prior Year Overview default view contains the same metrics as the General Overview, but shows the metric values for the prior year rather than the current year.

- Log in from a teacher account or search for a teacher and click on the teacher name
- The default view is the General Overview page
- Click the **Student List** drop down to navigate to a specific class section, watch list, or list of all students
- Click the **Data View** drop down to navigate to the Subject Specific or Prior Year overviews

» (log in as "TiffanyPaul")

The screenshot shows the Ed-Fi dashboard for Tiffany Y. Paul. At the top, there are navigation buttons: EXPORT ALL, PRINT, SUPPORT, and LOG OUT. Below these, the user's name and school (Hollywood High School) are displayed. A search bar is present. The main content area shows a student list with the following columns: STUDENT, GRADE LEVEL, DESIGNATIONS, ATTENDANCE / DISCIPLINE (with sub-columns for Last 20 Days Class Absences and State Offenses (YTD)), ASSESSMENTS (with sub-column for Learning Standard Mastery Math), and GRADES (with sub-columns for # Grades Below Proficiency and Grad Dropp (Below Profic)). The student list includes names like Baker, Joseph H., Balderas, Patrick O., Bartholomew, Jeremy Z., Bedard, Kathryn O., Bedard, Kimberly K., Belanger, Crystal, Betvin, Bruce J., and Bermea, Frankie O. Below the table, there are filters for State Assessment-M, State Assessment-Alt, Test Accommodation, and State Assessment-Commented. At the bottom, there are icons for various student categories like Gifted & Talented, Special Education, 204 Designation, ESL, LEP or Bilingual, Late Enrollment, Partial Transcript, and Test Accommodation. The footer includes the Ed-Fi logo and copyright information: © 2016 Ed-Fi Alliance, LLC. All Rights Reserved. Sample Student Data.

Select Features and Functionality

Ed-Fi Dashboards were extensively tested with classroom teachers to be intuitive and easy to use with a minimal need for manuals or training sessions. This section lists a few of the most useful features and functions educators have highlighted in using and customizing the dashboard.

Move Seamlessly Between Summary and Detail Views

Color-coded summary views can help an educator quickly identify problem areas. These views can highlight challenges for one student or an entire campus, and the trend areas and color coding can help educators to prioritize their efforts.

Additionally, educators can quickly access additional detail by clicking from an overview page to a specific metric. Anywhere a "More" button exists, users can click to access historical information or further visual detail as available.

Customize the Desktop View

Within the Classroom dashboard, teachers can use dropdown menus to toggle between student lists and data views, including general, subject-specific, historical, and assessment data. Educators can customize this view by adding metrics that are most relevant to their role or by deleting data elements that are less pertinent. The "Customize View" button allows a teacher to select metrics for display and to enlarge (or restore) the student grid as needed. This functionality is available in most areas where lists of students are provided.

- Navigate to any teacher's home page
- Click on **Customize View**
- Click on **See More Data**

[View this page in our demo](#)
» (log in as "TiffanyPaul")

The screenshot shows the Ed-Fi Classroom dashboard for Tiffany Y. Paul. The interface includes a navigation bar with 'EXPORT ALL', 'PRINT', 'SUPPORT', and 'LOG OUT' buttons. Below the navigation bar, there's a search bar and a dropdown menu for 'Student List' (currently set to 'LLAPR11 - English I (1 Unit) (A01) Spring Semester'). The main content area displays a table of student data with columns for 'STUDENT', 'GRADE LEVEL', 'DESIGNATIONS', 'Learning Standard Mastery Math', 'Learning Standard Mastery Science', 'Learning Standard Mastery Social Studies', '# Grades Below Proficiency', and 'Grades Dropping Below Proficiency'. The table lists several students with their respective scores and proficiency levels. A 'Customize View' button is located at the top of the table. The footer of the dashboard includes a copyright notice for Ed-Fi Alliance, LLC and a 'Sample Student Data' label.

STUDENT	GRADE LEVEL	DESIGNATIONS	Learning Standard Mastery Math	Learning Standard Mastery Science	Learning Standard Mastery Social Studies	# Grades Below Proficiency	Grades Dropping Below Proficiency
Belanger, Crystal	9th		95.8 %	89.4 %	76.9 %	0	0
Bland, Juan C.	9th		67.6 %	83.0 %	75.8 %	0	2
Brooks, David G.	9th		79.0 %	74.5 %	76.9 %	0	0
Cantiv, Beverly M.	9th		91.7 %	85.8 %	78.8 %	0	0
Cloutier, Michelle N.	9th		30.0 %	36.9 %	50.9 %	2	0

Forster, Crystal A.	9th		72.5 %	68.1 %	63.4 %	1	2

Create Custom Student Watch Lists

Educators can also use Ed-Fi Dashboards to create custom student groups based on a range of common factors. For example, educators can:

- Identify new students at the beginning of school year who may need additional monitoring based on academic and/or attendance issues (e.g., a "Freshman Watch List").
 - Create and follow groups of students based on similar situations/needs (e.g., lagging in certain standards, over a certain number of disciplinary actions, categorized as at-risk).
 - Identify areas for whole-group re-teaching, or smaller groups for targeted instruction (e.g., students who are all facing challenges with a similar mathematics objective or students who are all reading above grade level).
- Navigate to any teacher
 - Click **Customize View**
 - Click **Create or Add to Watch List**
 - Select students to add to list
 - Click **Add Selected Students to List** and name the list
 - The list will now be under the **Student List** dropdown menu
