Teacher Preparation Data Model

**Latest Release**

January 2021: On behalf of the Ed-Fi community, we are pleased to announce the release of TPDM v1.0.0.

**About the Teacher Preparation Data Model**

The Teacher Preparation Data Model (TPDM) is an Extension of the Ed-Fi Unifying Data Model created to fill the nationwide need for storing data on a teacher’s full career. The full-career lifecycle runs from pre-enrollment activities, enrollment in a teacher preparation program, program activities and participation, though program participants’ K–12 student outcomes.
