

Learning Standards Sync Utility

Overview

The Ed-Fi Learning Standards Sync Utility is a tool for system administrators for synchronizing learning standards between the AB Connect API and a specified Ed-Fi ODS / API instance. Using the tool requires active credentials for both the target Ed-Fi ODS / API instance and the AB Connect API. The Sync Utility application provides a command-line interface (CLI) to set parameters and define options.

Licensing

The Learning Standards Sync Utility is licensed through the [Ed-Fi License](#).

Learning Standards data is provided by Certica Solutions via the Academic Benchmarks (AB) Connect service. Vendors and education agencies can contact Certica Solutions for a free license to AB Connect [here](#).

Documentation

Documentation for the Learning Standards Sync Utility is available online.
