

Student Discipline Interchange - v2.0

Overview

This interchange defines discipline incidents and discipline actions.

Like all standard Ed-Fi interchanges, this schema references the Ed-Fi Core XSD and can be extended using the Ed-Fi Extensions Framework. See the [Ed-Fi Data Standard: Developers' Guide](#) for more information.

Use Cases

The Student Discipline Interchange can be used to:

1. Exchange a student's full or partial discipline history.
2. Exchange a student's updated discipline record.
3. Exchange school or LEA discipline data.

Model Details

The following figure shows a logical view of the Student Discipline Interchange schema:

Entities

The following table describes the primary entities of which the Student Discipline Interchange is composed.

Name	Description
DisciplineIncident	This event entity represents an occurrence of an infraction ranging from a minor behavioral problem that disrupts the orderly functioning of a school or classroom (such as tardiness) to a criminal act that results in the involvement of a law enforcement official (such as robbery). A single event (e.g., a fight) is one incident regardless of how many perpetrators or victims are involved. Discipline incidents are events classified as warranting discipline action.
StudentDisciplineIncidentAssociation	This association indicates those students who were victims, perpetrators, witnesses, and reporters for a discipline incident.
DisciplineAction	This event entity represents actions taken by an education organization after a disruptive event that is recorded as a discipline incident.

Extended References

This interchange includes the following Extended References.

Extended Reference Name	Description
AssignmentSchoolReference	Optional. School where student is transferred for discipline.
ResponsibilitySchoolReference	Required. School responsible for student's discipline

SchoolReference	Required. Relates the DisciplineIncident to the school where the incident occurred.
StaffReference	Optional. The staff reporter of the DisciplineIncident or responsible for enforcing the DisciplineAction.
StudentReference	Required. The student disciplined by the DisciplineAction.

Descriptor Dependencies

This interchange references the following Ed-Fi Descriptors, thus requiring them to have been defined using the Descriptors interchange prior to this interchange. For more information on the Ed-Fi Descriptor Pattern, see the [Ed-Fi Data Standard - Developers' Guide](#).

Descriptor Name	Description
BehaviorDescriptor	Optional. Describes behavior by category and provides a detailed description.
CountryDescriptor	Optional. This descriptor defines the name and code of the country.
DisciplineDescriptor	Required. Type of action, such as removal from the classroom, used to discipline the student involved as a perpetrator in a discipline incident.
ReporterDescriptionDescriptor	Optional. Information on the type of individual who reported the DisciplineIncident. When known use a more specific option code (e.g., "Counselor" rather than "Professional Staff"); for example: Student, Parent/guardian, Law enforcement officer, Nonschool personnel, Representative of visiting school.
StaffIdentificationSystemDescriptor	Optional. A coding scheme that is used for identification and record-keeping purposes by schools, social services, or other agencies to refer to a staff member.
StudentIdentificationSystemDescriptor	Optional. A coding scheme that is used for identification and record-keeping purposes by schools, social services, or other agencies to refer to a student.
WeaponDescriptor	Optional. Identifies the type of weapon used during an incident. The Federal Gun-Free Schools Act requires states to report the number of students expelled for bringing firearms to school by type of firearm.
