

# Ed-Fi Data Exchange Standards Home

March 18, 2024

Please note that the Ed-Fi Alliance is currently re-organizing content the API standards and guidance. Please visit <https://github.com/Ed-Fi-Alliance-OSS/Ed-Fi-API-Standards> for the latest work in progress.

This documentation is an index of all Ed-Fi data standards and related products. This index generally references currently supported standards, active standard proposals, drafts in field use, and recently deprecated standards.

This page lists specifications for Technical Suite 3, the latest generation of Ed-Fi technology, and Technical Suite 2, which remains active in field use.

- [API / JSON Standards](#)
- [Bulk / XML Standards](#)

The complete listing follows.

## API / JSON Standards

- [Core Student Data API \(RFC 16\)](#)
- [Ed-Fi Enrollment API \(RFC 19\)](#)
- [API Design & Implementation Guidelines v3.1](#)
- [Ed-Fi Assessment Outcomes API for Suite 3 \(v1.0.0\)](#)

## Bulk / XML Standards

- [Ed-Fi Bulk Data Exchange for XML v3.1](#)
- [XSD Design & Implementation Guidelines v3.1](#)

### Quick Links to Ed-Fi Standards Materials

- [Ed-Fi Standards Development Process](#) - explains how Ed-Fi technical standards are developed
- [Ed-Fi Data Exchange Standards Home](#) - final, approved standards
- [Ed-Fi RFC Home](#) - formal drafts of standards out for community review ("request for comment")
- [Ed-Fi Data Exchange Standards Home](#) - early, community-submitted proposals
